

Swage It S750 Install instructions

Step 1. REMOVE ALL PRIMERS!!

Step 2. Remove Primer System Assembly.

Step 3. Remove Primer Slide Track Bearing.

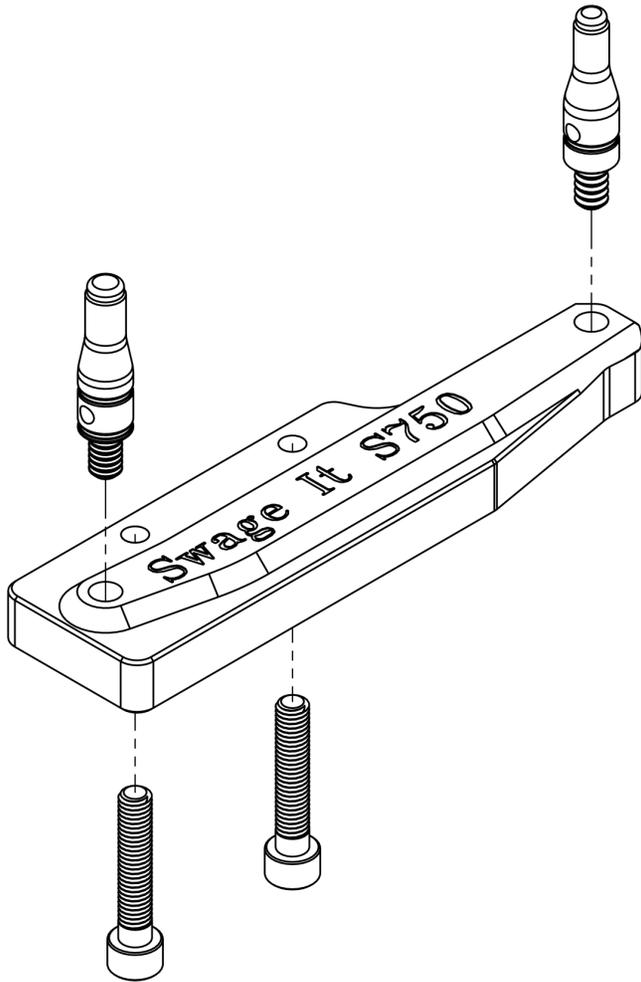

Step 4. Install desired swaging pin to the front of the mount.

Step 5. Install the S750 Swager onto the press using the supplied screws and align to the to the left side of the Primer System Mount Assembly.

Step 6. Lower the platform assembly to ensure that the swaging pin is centered in the shell plate.

Step 7. Tighten both mounting screws.

- While swaging the brass gently push forward on the press handle to fully seat the swaging pin into the primer pocket.
- Do Not use excessive force as this may damage the brass case
